Dear Parents/Guardians,

The Dock is excited to announce the launch of its new after-school program called Creation Club for upper elementary kids, set to begin on January 14. This innovative program aims to teach children the importance of cultivating deep-rooted relationships with others, just as our plants need strong roots to thrive and flourish.

In our fast-paced world, the foundation of strong relationships can sometimes be overlooked. The Dock's new program is designed to remind children that, like plants, our connections with others and with God must be nurtured and deeply rooted to thrive and bear fruit. Through engaging activities, hands-on gardening, and interactive lessons children will learn valuable life skills and biblical principles that underscore the significance of fostering meaningful and lasting relationships.

Creation Club will be held every Tuesday from 3:30 – 4:30pm and transportation will be provided from school. You can register your son/daughter by filling out the attached form and bringing it to school. We only have room for 10 students in this introductory class so sign up early.

Blessings,

A handwritten signature in purple ink that reads "Craig Van Hill".
